New Delhi, India

Jamia Millia Islamia

Class - 10th - **CGPA - 9.0**

2017

New Delhi, India

INTERNSHIP

TechVidya Career Private Limited

Python Full Stack Intern

AUG 2023 – FEB 2024

Noida(UP), India

- Assist in the development of both front-end and back-end components of web application using Python framework "Django" and front-end technologies i.e, HTML, CSS & JavaScript
- Participate in team meetings, contribute to discussions on project progress, and provide feedback while working closely with developers and other team members.
- Assist in creating and maintaining clear documentation for code, APIs, and system architecture to facilitate understanding and future development.
- You can view the projects below that i have completed during this internship.

PROJECT(S)

Mini Blog | Django, Python, HTML, Bootstrap

- Created a robust web application using Django for backend development.
- Designed and managed complex database schemas using MySQL, including model creation & migrations.
- Implemented secure user authentication and authorization features, including login, registration, and role-based access control.
- Enhanced Django's built-in admin interface for efficient data management and administrative tasks.

Starbucks Clone | HTML, CSS, Bootstrap, React.js

- Implemented a multi-page website using React.js
- Added a login functionality.
- Used React hooks: 'useState', 'useContext', and 'useEffect' for state management and improved user experience.
- Incorporated validation checks on user input.
- Stored credentials in JSON file.
- Website Link (Desktop Only).

Ebay Web Scraping | Python, MySQL, Streamlit

- Fetch the price of a Macbook from eBay at regular intervals.
- Update the price in the database.
- Perform trend analysis on data.
- Automatically send an email notification when the price drops.
